

Premier Pediatrics After-Hours Care

After-Hours telephone consultation is available through Premier Pediatrics 24 hours a day, 7 days a week by calling the main number at **303-655-1685**. When calling after hours, you will be connected to the Pediapage answering service that will take down basic information and phone number. Calls will then be forwarded to either the health care provider on call or The Children's Hospital After Hours.

After-hours telephone consultation is for urgent matters only. All routine issues including prescription refill requests should be handled during regular business hours. Any non-urgent calls placed after-hours may be assessed a \$10.00 fee. This fee will be billed directly to the responsible party. Insurance will not be billed.

After-hours telephone consultations generally provide guidance, not a diagnosis. In most cases, medications cannot be prescribed through telephone consultation. Telephone consultation is not a substitute for an in-person evaluation by a health care professional.
